Dear Dr. «First_Name» «Last_Name»,

We are continuing our MainPro+ accredited academic detailing service by distance while coronavirus remains an ongoing concern in the province. Are you interested in booking a **videoconference** or **telephone** call with us on our latest topic, buprenorphine-naloxone (**SUBOXONE**)?

Our latest topic:

Buprenorphine-Naloxone (SUBOXONE)

- As first line treatment for opioid use disorder, many are seeing this medication being used more and more. While not every clinician will prescribe this medication, it is very beneficial to be familiar with its use in primary care.
- Safety, efficacy, and the potential benefits of this treatment option in opioid use disorder will be discussed, along with other pearls.
- Buprenorphine-naloxone will be compared and contrasted with methadone.
- Additional tips, tools and approval process supports may also be discussed if you are considering becoming an approved buprenorphine-naloxone prescriber.

Yes, I would like to book an RxFiles visit.

Please check which option you prefer, and fax or email us back.

I would like a phone visit.

Please contact _____

to book a phone appointment with me.

I would prefer a _____ minute appointment.

I want to meet with you via videoconference (WebEx).

Please email me at _____

to schedule a visit. (Or: email us at «email_back».)

Thank you and all the best!

Sincerely yours,

«detailer»
